- Strong organizational skills
- Flexible and adaptive to new situations and skill requirements
- Basic yet functional understanding of several programming languages
- Proven ability to learn complex topics and explain them to lay people

EMPLOYMENT

Customer Service Lead

2010 – Present

I helped grow ChemaTox from 5 employees to 50, and wore many hats along the way. I helped with various administrative and maintenance related tasks, and developed three of those tasks into multi-employee departments.

ChemaTox Laboratories

Boulder, CO

Assembly Technician

2006 – 2009

I assembled and installed electronics for pharmaceutical automation. I also installed the completed machines at customer site and provided continued support at customer site. This included debugging ladder logic and troubleshooting wiring, sensors, and the mechanical design.

Maverick Enterprises

Longmont, CO

Technician

2005 – 2006

At Aero Systems, I built wiring harnesses to MIL-SPEC standards and installed them in aircraft and aircraft mounted hardware. I also designed testing equipment and procedures for testing and troubleshooting the above hardware. Additionally, I installed and troubleshot equipment for aerial photography and LIDAR survey equipment.

Aero Systems

Erie, CO

Avionics Technician

1998 – 2004

In the military I troubleshot, repaired, and maintained electrical, avionics, and armament systems on my units helicopters.

US Army

Ft. Polk, LA

EXTRA CURRICULAR

Electrical Volunteer

2015

I help maintain, repair, and build exhibits with minimal direction. This usually involves wiring in new components, troubleshooting installed components and wiring, and replacing components.

WOW! Children's Museum

Lafayette, CO

Head Non-Skating Official (NSO)

2010-2013

The High City Derby Divas are an all-women roller derby league; as head non-skating official I was responsible for organizing volunteer NSOs for each monthly bout (roller derby event), as well as managing them during the bout and providing training and feedback on their performance. I also filled the role of "Bout Master" on bout day, ensuring that the Bout Committee's plan was put into effect and resolving all last minute issues that occurred.

High City Derby Divas

Aurora, CO
